

Model Code E8949

date of issue 18-07-24 revision 00
revision of 18-11-24 (the present replaces any previous versions)

Designer: centro studi interno

Structure: pinewood, multilayer and plywood covered with polyurethane foam.

Spring system: elastic webbing.

Seat Padding: seat cushions in ecological polyurethane foam covered with 100% polyester layer.

Back Padding: backrests in fiber (synthetic fiberfill).

Arm Interior: armrests in ecological polyurethane foam covered with 100% polyester layer.

Removability: not available.

Sewing: covers are feasible with tone-on-tone stitching or, upon request, with contrast stitching in the colors available. Cuts and sewing on leather covers differ from cuts and sewing on fabric covers.

Mechanisms: "Electric comfort recliner" versions feature a motorized mechanism, operated via a control panel located on the side of the arm, which enables the activation of the recliner mechanism and the adjustment of the headrest and lumbar support positions. The depth of the model with open recliner mechanism is 161 cm.

Components: with a control panel (PUL M5) integrated into the outer side of the armrest, it is possible to easily adjust the independent movement of the backrest, seat, lumbar support, and headrest to achieve the most ergonomic position. Thanks to a USB-C power connector it is possible to connect and charge electronic devices, while the reset button returns the mechanism to the closed position with a single action.

Standard feet: PVC h. 4 cm.

Density of seat and back kg/cbm (±5%) (1)

Markets	Seat	Back
I	30 Medium HR	
D - NL - CH	30 sostenuto hard HR	
USA - California	30 soft HR	
GB	37 fire retardant	
Others	30 Medium HR	

(1)Density: volume mass apparently determined on materials without any kind of covers and according to the UNI EN ISO 845 regulations. Indicated values refer to production averages; the Company reserves the right, if needed, to make changes to the declared technical characteristics. Before use, it is advisable to look at the SAFETY INFORMATION TECHNIQUE for info regarding use and protection of people and of the environment, in compliance with existing EEC regulations.

We reserve the right to amend materials, covers and product dimensions shown on the data sheet, for production purposes and without prior notice. The line drawings, graphic information, dimensions, and volume provided are approximate and may vary due to the tolerances allowed in the production process with a view to improvements. The following maximum load values are recommended under normal use: armchairs max. 120 kg, 2-seater sofas max. 200 kg (2x100 kg), 3-seater sofas max. 240 kg (3x80 kg). Exceeding the recommended load may cause a structural failure of the sofa/armchair or its components.
